

**Lo-Profile® Model 8571
3-Station Pour-Over Coffee Brewer**

Worries? Not with this dependable Lo-Profile® brewing system. Now you can count on pouring a great cup of coffee every time. Like all Bloomfield products, this proven, efficient Lo-Profile brewing system is designed to take advantage of the finest electrical components and has the lowest service cost in the industry for this type of brewer. From our patented water delivery system, to our exclusive Ready-to-Brew Light, the Lo-Profile system makes brewing effortless. And with its compact size, just under 17", it does it all. The Bloomfield Lo-Profile brewing system, simply worry-free.

Features & Benefits

- High level of commonality of parts with other Bloomfield models, significantly reducing the inventory of spare parts required to service many body styles.
- Exclusive design provides easy access to components and hot water tank for quick service.
- Rugged one-piece drawn stainless steel water tank has a superior design for extended life.

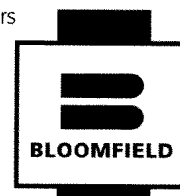

- Top quality, easy-to-clean stainless steel construction.
- Ready-to-Brew light indicates the proper water temperature to help eliminate the guesswork in brewing.
- Superior new sprayhead design spreads water gently over the coffee grounds, creating agitation and a floating action that completely saturates the coffee to capture the full, rich essence of every bean.
- High quality thermostat has a full-length stainless steel sensing bulb that recognizes water temperature accurately and cycles less frequently.
- One-piece porcelain adjustable enameled warmer plates position decanters securely, with no exposed screwheads.

Accessories

- 8553 two station step-up warmer
- 8901 decaf imprinted glass decanters
- 8900 imprinted glass decanters
